MODERN ATTAINS CERTIFICATION DISTINCTION

Modern Precast Concrete of Ottsville, Pa., has announced that its new Easton, Pa., facility attained the NPCA Certified Plant award in January. The company says this award means that 100 percent of Modern's facilities – Ottsville, Bethlehem and the new Easton plant – are NPCA certified and recognizes that Modern operates its precast manufacturing plants at the highest standards of production and quality control.

Modern manufactures precast concrete products and sells a broad range of construction supplies. Visit www.modcon.com or call (484) 548-6200 for more information.
